Puradigm Air 1500

Proven Active Air & Surface Purification

The Puradigm Air 1500 has been university tested and proven effective against both airborne and surface contaminants in indoor environments up to 1,500 square feet. This compact unit is perfect for homes, apartments, dorm rooms, small offices, classrooms, and more.

Active PCO Advanced (Photo Catalytic Oxidation) Technology

University Tested and Validated

Designed and Assembled in the USA

Features & Specifications

Warranty

1 Year Limited Warranty

Specifications

Unit Size:

6.75" high x 6.5" wide x 7" deep

Weight: 3.0 lbs

Coverage: Up to 1500 sq ft (depending upon load)

Electrical

100-240VAC 50/60Hz 30W

Operational anywhere in the world

PCO Advanced Cell

Normal Mode Output:

Ozone free

Purification Plate

High Mode Output:

<0.04 ppm (High Mode when set based upon ventilated space)

0.15 ppm (Away Mode - typical)

Ion Generation

1 million/cm³ at 1m

Electrical Certifications

UL (US & Canada), CE, PSE, TUV, EK (Korean), RoHS Compliant

- Ultra-Quiet Fan Motor with Three Fan Speeds
- Eliminates Smoke and Odors - Doesn't Cover Them Up
- Needlepoint Ion Generation
- Washable Rear Filters
- Away Mode (Goes Off After 2 Hours)
- Full Function Remote Control
- Low Energy Consumption
- Universal AC/DC Power Supply
- Replaceable PCO Advanced Cell and Purification Plate
- Significantly Reduces Mold, Bacteria and Viruses

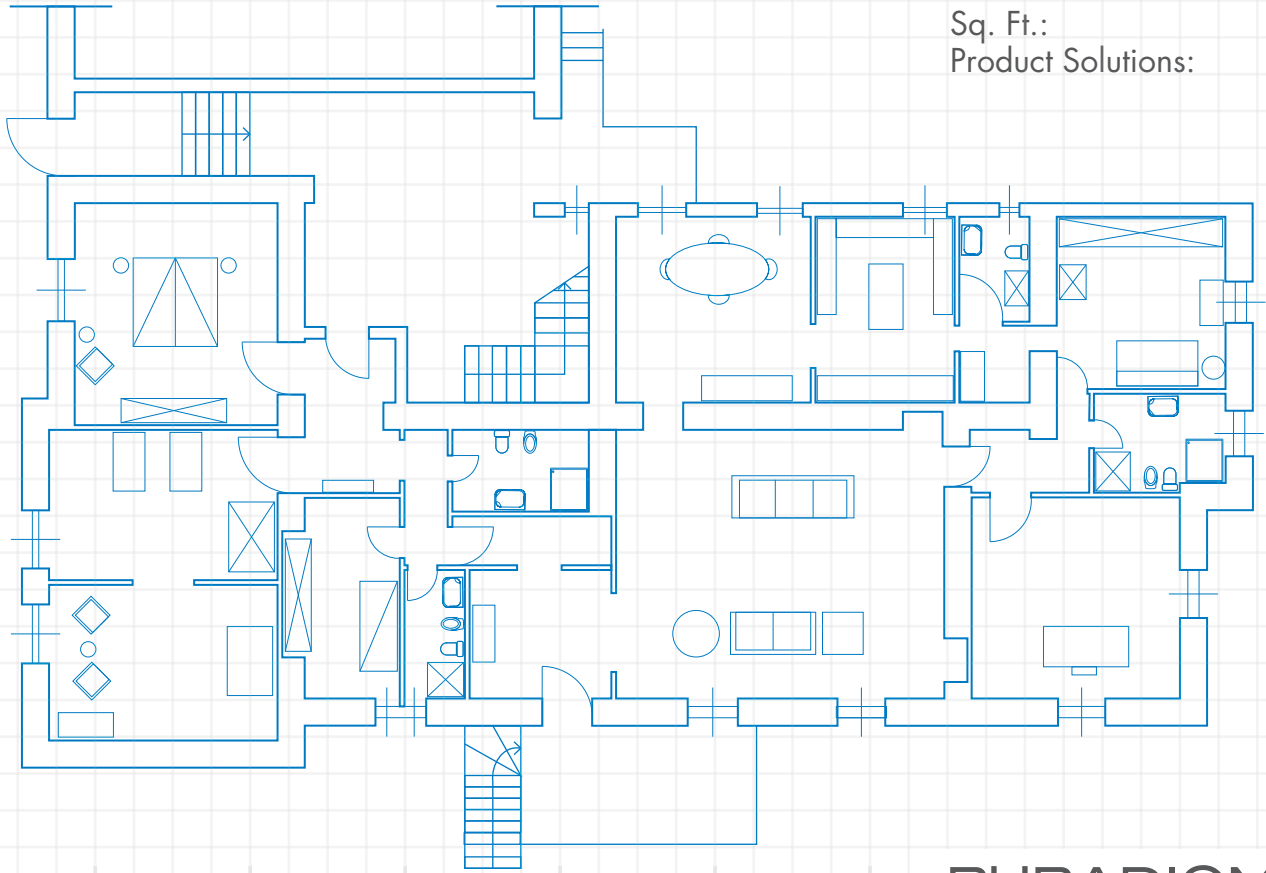

Our products are not medical devices and are not intended to diagnose, treat, or cure any disease.

*Depending on variables such as the severity and frequency of pollution, flow of air in the environment, humidity and temperature.

Puradigm, LLC declines all responsibility for all damages arising from improper use of the unit or in case of tampering with the unit.

PURADIGM™

Puradigm Air 1500 Model Featuring PCO Advanced Technology

Active PCO Advanced
(Photo Catalytic Oxidation)
Technology

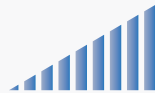

Our Active PCO Advanced (Photo Catalytic Oxidation) technology not only destroys biological contaminants traveling through the cell, it also produces purifying plasma which reduces odors, mold, bacteria, and viruses.

Needlepoint Ionization

Generates a continuous stream of millions of negative ions that circulate throughout your environment. These ions charge particles of dust, dander, bacteria, and viruses – causing them to clump together and fall out of the air you breathe.

Scalable Activated Oxygen

Puradigm Air comes equipped with adjustable purification levels. Ozone generation is scaled to the size of the area and the level of contaminants.

Electrostatic Filtration

An advanced electrostatic filter comes with the unit to help keep the purifier clean while at the same time filtering out particles which clump together from the needlepoint ionization.
